Hi Travis,

When it is available, please send the updated SWPPP and documentation of active coverage under the State General Construction Permit, which is required prior to start of any work.

Thanks

Likewise Noel. Glad to be on-board! Let me know when you want to schedule the training of staff to handle the day to day paperwork that is required. This is a Risk Level 2 project which has some additional requirements compared to the last one we worked on.

Thank you,

Hi Travis,

Please find attached your executed agreement for QSP for the Highland estates project.

I look forward to working with you on this project.

Thanks,
Noel
