Card Fronts

1

Player Role

Supervisor
Elected Official

You are the County Supervisor who was elected by the residents of this part of the County for your holistic view of the district's future, with high-level consideration of social, economic, and environmental values.

2

Player Role

County Planner
County Planning and Sustainability

You represent the interests of the Planning Department. It is your role to ensure the recommendations and decisions make a safe, healthy, and sustainable path for Princeton. You also are interested in maintaining the transit mobility in the area, including the roads, bike and pedestrian paths, and the bus route.

3

Player Role

Chief Engineer
Utility Representative

You represent the interests of the utility infrastructure. Your role is to provide sewer and water services to the community.

4

Player Role

Fishing Association President
Community Representative

You represent the community of fisherman and advocate for a healthy bay and ocean, access to the harbor, and businesses that support the commercial fishing industry.

5

Player Role

Business Owner
Community Representative

You represent the business owners. Your business is located in one of the Industrial Zones vulnerable to sea level rise. You have operated your business in this community for the past 15 years.

6

Player Role

Local Resident
Community Representative

You represent the residents and live in a very vulnerable area to sea level rise. You have served as a community representative for the past 10 years and you have successfully advocated for improvements in your neighborhood.

Card Fronts

1

Player Role

Surfer
Surfing Representative

You represent the surfing community. You do not live in Princeton but have been surfing Maverick's for the past 25 years. You are interested in preserving public access to beaches, coastal trails, and the health of the ocean and natural environment.

2

Player Role

Harbormaster
Community Representative

You represent the Harbor District. Your responsibilities are to ensure maritime resources, emergency response, and public access are managed in a fiscally and environmentally responsible manner.
